

Mrs. Hall's and Mrs. Keus' SK Class - March Newsletter

Welcome to Kindergarten! "Where the great are small and the small are GREAT!"

This month in math - We will be learning about measurement and using standard and nonstandard units of measure to size up classroom objects. We will also use a scale to measure weight and compare the weight of objects. Later in the month we will begin looking at Canadian coins and talking about their value. Lots of skip counting will be done on our number line with the help of these coins.

Book Orders - Scholastic orders are due back by Mon, March, 7/11. Thank you for your orders, they help support our classroom library.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<u>The True Story of the Three Little Pigs</u> Word of the Week: look	28 Letter Sound ar	1 We will make structures in the block centre.	2 We will look at whose point of view our story is told from.	3 We will measure our structures in the block centre.	4 We will act out the different versions of our story.	5
